## SIYON CONSUMER CARE

REDEFINING CONTRACT MANUFACTURING WITH INNOVATION & TRUST

India's cosmetics and personal care contract manufacturing industry is witnessing exponential growth, fuelled by rising consumer demand, digital-first brands, and evolving product preferences. According to a report by Research and Markets, India's beauty and personal care market is projected to reach \$33.33 billion by 2027, growing at a CAGR of 6.5 percent. However, the sector faces challenges of rapid innovation cycles, supply chain disruptions, volatile raw material costs, and the pressure for consistent quality at scale. This is where Siyon Consumer Care, stands apart as a trusted partner for leading FMCG players and modern trade retailers. With in-house R&D, pilot plants, robust digital supply chains, and nationwide logistics, the firm bridges these challenges, delivering end-to-end solutions from product development to timely, quality-controlled commercial manufacturing across home and personal care categories.

### Innovation Partnership

With over two decades of expertise, Siyon Consumer Care stands apart as a product-driven, technology-led player in India's fast-growing contract manufacturing and private label space. Founded by Linus Dcosta, an alumnus of Institute of Chemical Technology (ICT), Mumbai, the firm goes beyond cost-driven manufacturing to deliver high-performance, innovation-led products across home and personal care categories. By constantly tracking global trends from Southeast Asia to Europe and Americas, the company tailors cutting-edge formulations to meet evolving Indian consumer demands. Its advanced infrastructure includes two large manufacturing units, one in Vapi which focuses on personal care products and one in Vasai, focused on laundry and home care products. The company's ability to offer technological edge, consistent quality, and product

differentiation makes it a preferred partner for brands seeking innovation, speed, and scale in the competitive FMCG space.

"We have built long-standing partnerships with leading retailers and FMCG brands such as Dmart, Dabur, Jyothy Labs, Ipca Labs, and more, by offering more than just manufacturing, we deliver innovation, cost optimization, and product development support. We proudly position ourselves as partners in our customers' growth, not mere converters, bringing technological expertise and reliable solutions to every project", speaks Linus Dcosta, Managing Director, Siyon Consumer Care. Sustainability remains core to operations, from using recycled packaging and EPR compliance to adopting green chemistry and energy-efficient processes. With exports to Europe, Africa, South East Asia and the Middle East, Siyon Consumer Care ensures products meet global safety and sustainability norms, combining affordability with future-ready, eco-friendly solutions.

**More than  
manufacturers, we are  
partners in innovation,  
delivering customized,  
high-performance  
products with  
technology, integrity,  
and care**

### Tailored Excellence

As a leader in custom manufacturing for home and personal care, Siyon Consumer Care specializes in tailor-made products aligned to each client's needs, be it packaging, fragrance, formulation, or cost targets. The company's in-house R&D works within strict BIS standards while delivering innovative, cost-effective, and eco-friendly solutions. Every product

undergoes rigorous testing, including stability checks and third-party dermatology assessments, ensuring safety and consistency. To maintain seamless large-scale production, the firm follows an Annual Maintenance Plan (AMP) where every machine has a health card, tracking maintenance history and spare parts used. With monthly equipment check-ups, ISO-certified processes, critical spare parts inventory, and continuous investments in automation, the firm ensures minimal downtime and superior quality.

Siyon Consumer Care is poised for significant growth, with a state-of-the-art facility in Vapi set to triple its production capacity by September 2025. This advanced, automated plant will cater to both domestic and export markets, aligning with rising global demand for Indian-made FMCG products. Beyond infrastructure expansion, the company is investing in new-generation home and personal care products, anticipating evolving consumer preferences over the next five years. The firm is also innovating by blending natural ingredients into its formulations, meeting global demand for nature-inspired, high-performance products. With a strong focus on R&D, capacity building, and sustainable innovation, the company is committed to scaling operations while staying ahead of market trends.
